

REMARKS

The Examiner's Action of March 24, 2006 is noted in which Claims 21 and 22 are allowed and in which the remainder of the claims are rejected under 35 USC 112, 2nd Paragraph, and under 35 USC 102 with respect to the cited art.

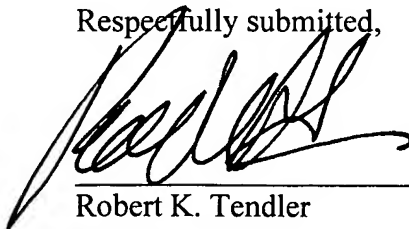

Moreover, as the drawings are indicated as being informal and subject to acceptance by the Examiner, formal drawings are provided herewith in a Letter To the Official Draftsman.

Moreover, Applicants have provided the priority information in the Specification under an appropriate heading; and the meander line-loaded antenna patent on Page 4, Line 7 has been appropriately specified.

The claims have been amended to alleviate the 35 USC 112 rejections and Claim 18 has been canceled without prejudice. As to the art rejection, the allowable subject matter of Claim 2 has been incorporated into Claim 1. Thus Claim 1 and the claims that depend therefrom are free of the prior art.

In view of the above Amendment, it is asserted that all of the claims are now in condition for allowance. Allowance of the claims and issuance of the case are therefore earnestly solicited.

Respectfully submitted,
